Assignment 4

Reading Assignment

Assigned Date: Feb. 3

Study the following selected articles and/or papers from the References and Additional Readings sections of chapter 3:

Those articles and papers are accessible through IPFW e-journal finders.

Individual Reading Assignment Guidelines:

- Read all 9 articles/papers listed in the reference above, and prepare for class discussion.
- Keep the following paper review guideline in-mind while you are reading these papers:
  - A summary or introduction about the paper/article
  - The limitations of the study
  - Presented data and findings/technical contents
- The effort by author(s) to present explanations – understanding of data and findings
- A brief comments on the review of existing research literature on the topic that added at the end of the article or paper in the Reference section
- Your own lesson learned and how (conclusion)
